# Ankush

ankkpundeer123@gmail.com | +91 8006763804

Results-oriented Frontend Developer with 3+ years of experience in building dynamic, responsive web applications. Proficient in JavaScript, TypeScript, Redux, and RESTful APIs. Strong focus on performance optimization and user experience.

## EDUCATION

### BIT MEERUT
B.tech in Computer Science & Engineering
July 2016 - Aug 2020

CGPA: 7.68 / 10.0

### SKILLS
- Data Structures and Algorithm
- ReactJS
- Node.js
- JavaScript
- HTML/CSS
- RESTful APIs
- Version Control (Github/Gitlab)
- Frontend Frameworks (e.g., Redux, Material-UI)
- Unit Testing (e.g., Jest, Enzyme)
- MySQL

### PROGRAMMING
- Java
- Python

### OTHERS
- Docker and Kubernetes
- Container Orchestration
- CI/CD • Jenkins
Familiar:
- Windows • Linux

## ACHIEVEMENTS

- I am a **5 star** coder in problem solving at **Hacker Rank**.
- I won gold medal in Inter branch "Basketball Tournament".
- I won gold medal in Inter branch "Cricket Tournament".

## WORK EXPERIENCE

### EDGEVERVE SYSTEMS LIMITED | Software Developer
Feb 2022 - Sep 2023

Experience in React Development
- **Developed and maintained several React applications** from concept to deployment, focusing on user interface functionality and user experience optimization.
- **Integrated RESTful APIs for data fetching and management** using Axios/Fetch.
- Utilized React Hooks and functional components to **improve application performance by 20%**.
- **Reduced page load times by 30%** through code-splitting and lazy loading.
- Utilized React components and state management techniques to **create dynamic and interactive user interfaces**.
Experience in deployment using both Docker and Kubernetes
- Creation and management of **CI/CD pipelines in Jenkins**.
- Automation of processes like **deployment of pods using kubernetes**.

### IT HOURS SOLUTIONS | Software Developer - Javascript
Oct 2020 - Feb 2022

- Worked on various Live projects like Remedo App, Doctor DRD App, Trading Room App and IT Hours Solution's Website.
- In Doctor DRD App i created settings page and integrated API's data with that page.
- Created and designed portfolio, career and pricing page for IT Hours website.
- **Technologies Used:** Angular 10, Node.js, Typescript, MongoDB, HTML, CSS, Javascript, Jquery, Semantic UI.

## INTERNSHIP AND CERTIFICATIONS

### FULL STACK WEB DEVELOPMENT BOOTCAMP | Newton School
July 2021 - Jan 2022

- Data Structure and Problem Solving Skills.
- Solved **300+ algorithmic problems using java** as a part of the course.
- **Technologies Used:** Java, Javascript, React, Node.js, Express, HTML/CSS

## PROJECTS

### REACTFLIX- REACT MOVIE APP (visit app)
Dec 2021
- Features : React app for searching movies.
- Built a fully functional Reactflix web application using React, Redux for state management, and React Router for client-side routing.
- **Technologies Used:** React, Redux, Bootstrap, Javascript, HTML/CSS

### TASK MANAGEMENT APP (visit app)
Oct 2021
- Features: Angular app for managing tasks.
- A powerful and intuitive task management application designed to help individuals and teams organize, track, and complete tasks efficiently.
- **Technologies Used:** Angular,RxJS, Routing, Firebase, Typescript,Javascript, HTML/CSS
